Bretton Woods Telephone Company, Inc.
Line 610 – Functionality in Emergency Situations

As required in 47 C.F.R. § 54.313(a)(6) for all high cost recipients, which includes the Company, and as set forth in 47 C.F.R. § 54.202(a)(2), the following provides a detailed description demonstrating that the Company has the ability to remain functional in emergency situations, including a demonstration that 1) it has a reasonable amount of back-up power to ensure functionality without an external power source, 2) is able to reroute traffic around damaged facilities, and 3) is capable of managing traffic spikes resulting from emergency situations.

OVERALL RESPONSE TO EMERGENCY SITUATIONS: The Company has a comprehensive disaster recovery plan (also called a “continuity plan”) that was developed and implemented for the Company specifically to deal with emergencies. It has detailed, specific steps that are to be taken for each type of emergency.

POWER: In order to function in an emergency, the Company has a combination of batteries and emergency generators. Permanent locations have emergency generators with fuel tanks. The company’s central offices have automatic stand-by generators to run the entire offices. The digital loop carrier (“DLC”) sites also have battery back-up.

REROUTING TRAFFIC AND REDUNDANCY: The network was designed with redundancy wherever possible. Where it is not redundant, the Company has the ability to redirect most backbone traffic. In cases where there is no redundancy it is geographically impracticable to build. For example, the loop to the customer location is typically not redundant, especially for residential customers. This is because it would not be cost effective to build totally separate facilities for the “last mile” to the customer.

MANAGING TRAFFIC SPIKES: The Company realizes that when a catastrophe happens, everyone immediately tries to contact friends and family to make certain they are all right. The Company has designed the network to have excess capacity on its backbone network. For example, on Mother’s Day, the company handles traffic without the customer receiving the “All Trunks Busy” message which demonstrates the Company’s ability to handle peak traffic spikes.

Bretton Woods Telephone Company, Inc. Lifeline Terms and Conditions

The Lifeline Service Program (Lifeline), sponsored by the FCC is a program designed to maintain and preserve universal service by providing a reduction in the price of basic residential exchange service to qualifying low-income customers.

1. Lifeline Discounted Service

This service provides a flat rate federal discount of \$9.25, consisting of a \$6.50 reduction of the Federal Subscriber Line Charge and a \$2.75 reduction in the monthly rate for local exchange telephone service. Lifeline reductions are applied to one residential telephone line per household per month at the customer's primary residence. Qualified customers may choose any type or grade of local telephone service, including bundled services that are normally offered by the Company. The Company's voice lifeline plan includes unlimited local minutes-of-use within the toll-free calling area. The Company's voice lifeline plan does not include any free minutes-of-use for toll unless a "bundled minutes" package is chosen.

2. Toll Limitation Service (TLS)

Voluntary TLS support allows eligible Lifeline consumers who wish to avoid incurring long distance fees to choose toll blocking or toll control at no cost.

3. Regulations

These services are restricted to low income residential customers. To qualify for Lifeline service a customer must certify and provide documentation as income eligible. For a consumer to be eligible under the income requirements, the consumer's household income as defined in §54.400(f) of the FCC Rules must be at or below 135% of the Federal Poverty Guidelines for a household of that size or a recipient of benefits from any one of the following federal assistance programs:

- Low-Income Home Energy Assistance Program (LIHEAP)
- Federal Public Housing Assistance or Section 8
- Medicaid
- Supplemental Nutrition Assistance Program (SNAP), formerly known as Food Stamps
- Supplemental Security Income (SSI)
- Temporary Assistance for Needy Families (TANF)
- National School Lunch / Free Lunch Program (NSL)

4. The Lifeline discount is effective upon receipt and processing of a completed form of eligibility, including documentation indicating that the household income meets the eligibility standards established above. If the form is not returned, no further action is taken by the Company to establish eligibility. The Company, in coordination with appropriate agencies and the Lifeline Customer, will require Lifeline customers to be re-certified on an annual basis or at any time the qualifying criteria for the customer changes. Lifeline customers will need to certify that they continue to be eligible to receive these Lifeline benefits and that they are not receiving benefits from another company. If a customer is identified as being ineligible, the customer will be notified that unless the information is shown to be in error, the Lifeline discount will be discontinued. If the Telephone Company discovers that conditions exist that disqualify the recipient of Lifeline Service, local service will be billed at the full rate. The customer will be billed retroactively either to the date Lifeline Service commenced or the date the recipient no longer qualified for the service, not to exceed twelve (12) months.
5. Recipients of Lifeline Service must notify the Telephone Company when they no longer qualify for Lifeline Service. Upon receipt of the notification, the Telephone Company will discontinue Lifeline Service.
